ABSTRACT

This document consists entirely of 132 tables which present statistics on the projected population size of 12 racial and ethnic groups in California: non-Hispanic Whites; Blacks; Hispanics; Chinese; Filipinos; Asian Indians; Japanese; Koreans; Southeast Asians; Vietnamese; Other Asians; and other groups. An accompanying report deals with these projections more descriptively. For each group, 11 tables are provided. The first shows population at the beginning of the projection period (January 1980) and then the following 10 tables show projected population at 5-year intervals, up to, and including, the year 2030.
